

Casa Chablé, located in the heart of the Sian Ka'an Biosphere, named a World Heritage Site by UNESCO, welcomes you to a fully immersive experience with unique seasonal celebrations.

Following in the footsteps of the ancient Mayans, we will delve into age-old wisdom to connect with the essence of our being and harmony with the universe, reveling in festivities across two harmonious weeks of celebration, where guided by the stars of this sacred land, we will embark on a magical celebration to close the solar cycle.

Join us in this sacred reserve where natural beauty merges with celebrations under the sun and the festive spirit of the Caribbean.

We welcome the most magical season of the year where the feeling, emotion, and anticipation for the countdown to the festivities begin.
